

SCI Impact

October 2022

In the past year, we saw more individual donations than ever, and had the most successful fundraising event in our history. We take that support as a sign that you, our supporters, are invested in SCI's work to cultivate the connections we need and develop leaders in order to strengthen our communities. It is only with your help and support that we can continue this important work. The impact of our programs at SCI can be seen through a few highlights of the past year. Thank you for your commitment to our mission!

Program Highlights

Celebrating the diversity of our communities

Over 400 people joined our second annual Juneteenth celebration. SCI, along with many community partners, organized an event that offered inspiration, joy, important history, displays of local talent, and more.

Advancing equitable service experiences with SCI AmeriCorps

We are taking strides toward creating a more equitable service experience by increasing SCI AmeriCorps member stipends and expanding our member training program. These changes will improve the member experience, and open the door for more of our community members to serve.

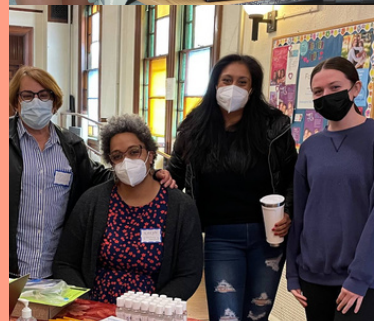

Providing opportunities & resources for youth-led projects

Youth participants in a paid internship program created an accessible and lasting resource for their peers - a website, Middlesex4MentalHealth.org, offering knowledge, activities, and more for youth to learn, and improve their own mental health. This was a youth-led project with guidance and resources from SCI and partner organization, Network for Social Justice.

Equipping local leaders with resources and knowledge

With the SCI Vaccine Equity Program (VEAP), over 150 trusted community members trained as ambassadors to share factual vaccine information and guidance to their networks, have reached thousands and counting.

Promoting a culture of ongoing learning and Allyship

A free resource to guide people in understanding meaningful and active allyship is now available on the SCI website. SCI staff has also brought this training to different groups, including a virtual program.

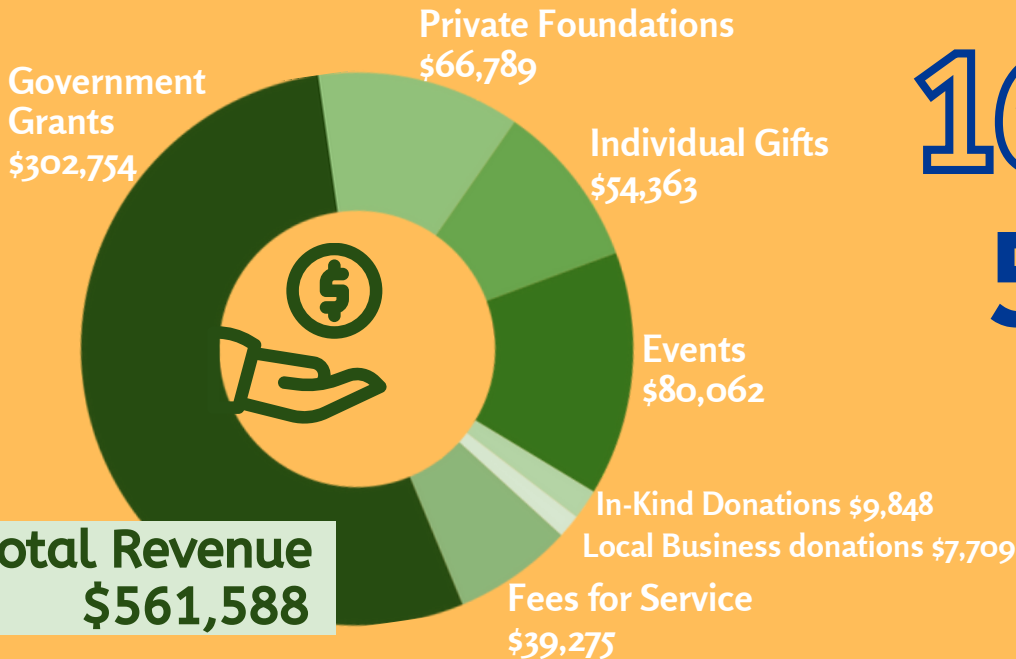

Cultivating Connections. Developing Leaders. Strengthening Communities.

Founded in 2002, SCI's mission is to **strengthen communities** by **connecting diverse individuals and organizations** through **civic engagement initiatives**.

*Celebrating
20 years!*

Financial Data

Federal pandemic relief programs have alleviated matching requirements and other challenges—but these funds will not last. For our next fiscal year, we have grown our fundraising targets.

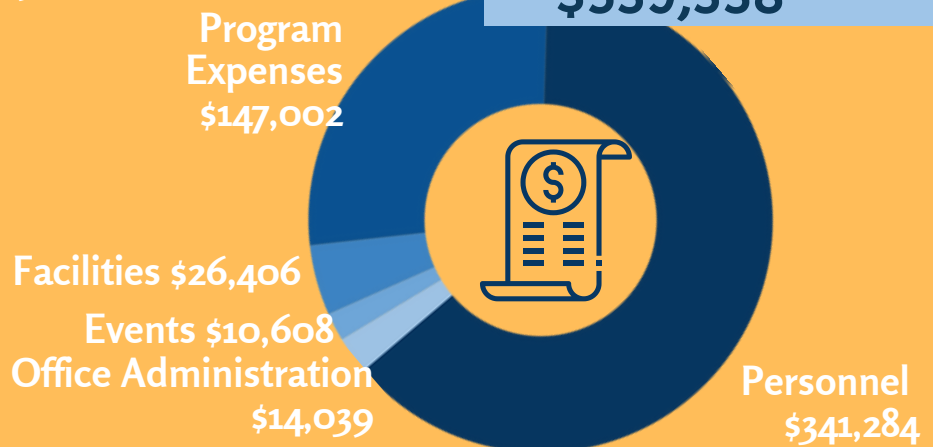

163 individuals gave to SCI

55  new supporters

100% Board Giving

Total Expenses \$539,338
