You can take some time to enjoy the beauty and get to know new parts of the city! Share your favorites with someone you know, or maybe someone you just met!

The mission of the Woburn Recreation Department is to promote the health and welfare of the citizens of Woburn by providing safe, affordable, and most importantly enjoyable recreation programs.

SCI Social Capital Inc.

Cultivating Connections. Developing Leaders. Strengthening Communities.

Your "**social capital**" comes from the people you know, the organizations and groups you're a part of, and all of your relationships. These connections are valuable to **your success, happiness, and health.**

SCI was founded in 2002 by David Crowley. Returning to his hometown of Woburn, he created an organization focused on **bringing people together**. For two decades, we have taken action, big and small, to respond to what our community needs, in our hometown, and beyond.

At SCI we build social capital by cultivating **connections**, developing **leaders**, and creating strong, healthy, and inclusive **communities**.

What We Do

Empowering Young Leaders

SCI empowers youth to address needs they see in the community. Providing opportunities to build relationships, develop new skills, and access to resources and funding, SCI helps youth to put their ideas into action.

Engaging Volunteers

Volunteer opportunities with SCI bring people together. Programs like our snow shoveling for seniors provide both connection and vital support to our community.

SCI AmeriCorps: Service & Impact

SCI AmeriCorps is a unique opportunity to make an impact while gaining experience to advance careers. SCI AmeriCorps members lead youth leadership programs and expand volunteer opportunities.

Inclusive & Healthy Communities

Through events like Juneteenth and our Summer Concerts, and programs like Allyship, SCI brings people together and celebrates diversity.

Responding to the COVID-19 pandemic, SCI is working with community leaders to conduct grassroots outreach and reach those at highest risk of COVID-19 and the Flu.
