## About the SCI AmeriCorps Program

**i** The SCI AmeriCorps program places AmeriCorps Members at youth-serving nonprofit organizations in the Greater Boston area to address the need to connect opportunity youth with the people, experiences, and resources that increase their prospects for success.

These connections are important forms of social capital, a term that refers to the collective value of all social networks and relationships. Social capital is crucial for success, but much less available to opportunity youth. We use the term "opportunity youth" to indicate the significant potential of these youth when they are provided with positive adult mentorship along with the opportunity to engage in leadership development and other enriching activities.

The SCI AmeriCorps members serve as Community Engagement Coordinators at the nonprofit partners to build organizational capacity for volunteer engagement and youth enrichment programming.

The SCI AmeriCorps Program anticipates continuing to have 25 full-time AmeriCorps members for the service year – this application is being issued in anticipation of continued state and federal funding from the AmeriCorps Agency and the Massachusetts Service Alliance in May 2024.\*

\*SCI AmeriCorps receives fiscal, in-kind, and technical support from the following partners:

- The Massachusetts Service Alliance (MSA), established in 1991, is a private, nonprofit organization that serves as the state commission on community service and volunteerism. Its mission is to catalyze the innovation and growth of service

and volunteerism by creating partnerships that maximize resources, expertise, capacity, and impact.

- The AmeriCorps Agency (*formally known as CNCS*), established in 1993, is a federal agency that engages more than 5 million Americans in service. As the nation’s largest grant maker for service and volunteering, AmeriCorps plays a critical role in strengthening America’s nonprofit sector and addressing our nation’s challenges through service.

While you should have high expectations, you should also keep in mind that they are likely to need more coaching and guidance than a seasoned employee.
- If performance issues do arise, Host Sites are expected to work through the SCI AmeriCorps process for coaching the Member and if needed, developing a Performance Improvement Plan (using SCI template) with the Member. **SCI should be notified as soon as any performance issues arise.** Members can’t be terminated without going through the Performance Improvement Plan process except under extreme circumstances (e.g. if the Member has done something to threaten the safety of someone, or other serious offenses outlined in the Member Handbook). **Only SCI can terminate or suspend a Member.**
- Full-time SCI AmeriCorps members commit to serving 1700 hours over the course of their 10-month service term.
