Cultivating Connections

Support Teen Mental Health in Woburn!

Leaders for an Equitable Tomorrow (LET) is a program that supports youth mental health through resources, community events, and public workshops developed by teens, for teens.

In 2023-2024 the LET program hosted 3 educational workshops and 4 wellbeing activities that were attended by 110 youth and 220 total individuals.

SCI is looking to expand the LET program to support 5-10 student interns annually while engaging 250+ youth each school year. In order to continue growing the impact of LET, we are asking for your support in sponsoring SCI's LET program.

"When reflecting on my experience with LET, I think of the emphasis our leaders had us put on our mental health. In return, that focus creates a thriving environment where we then look for ways to promote mental health for people around us in the community." –Jacoby Altman, SCI LET Intern (Summer 2023 – Present)
